

Achieve 3000 Online Learning Program

If you continue to study at home or in your community library using a computer with internet access, we invite you to try an online literacy tool that is fun and easy to use. Called Achieve3000 KidBiz (for grades 2-5) or TeenBiz (grades 6-12), these programs allow you to practice reading, writing, and vocabulary through exciting online activities. If you are a Spanish speaker, feel free to choose the Spanish option when logging in so that you can do the activities in Spanish.

To get started, all you have to do is enroll. Directions are available here (insert doc link). If you need assistance, ask your parent, guardian, friend, or family member to help you enroll and get started.

(Note to parents/guardians: Access to this program has been made available to all students citywide for two weeks to assist students whose schools have closed. We hope your child is able to take advantage of the learning exercises provided here.)
