## General Information

Sprout is a private non-profit organization founded in 1979. We are dedicated to helping people with disabilities grow through recreation, education and leisure in a group setting. Sprout activities enable participants to become aware of and overcome limitations imposed by themselves and/or society. The result is greater self-confidence and personal gratification.

The programs offered by Sprout include summer vacations, year-round weekend trips and the New York City Program.

The New York City Program offers educational, recreational & cultural activities on weekday evenings and weekends. This program is available to adults & teenagers at least 16 years of age with developmental disabilities who live with their families in Brooklyn, Manhattan or Queens. Our groups consist of ten participants (moderate to high functioning level & ambulatory) and three Sprout leaders.

The New York City Program is funded through a contract with the New York State Office of Mental Retardation and Developmental Disabilities.
