ANNUAL ARTS IN SCHOOLS REPORT 2007-2008

This Annual Arts in Schools Report provides data for:

School: 27 Q223

2007-2008 Principal: Deborah Otto

Arts Education Liaison: Eric Lang

INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report measures two areas:

Student Access to and Participation in Arts Education

Uses surveys and information from DOE databases to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the activities, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

Resources to Support Arts Education

Uses information from DOE databases and surveys to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in June 2008 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards: <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>

New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.ⁱ

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed New York City schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents diploma with advanced designation in the arts.

This school has submitted the following information about its arts program:

Our full-time music teacher and full-time visual arts teacher (and art liaison) are the main components of P.S.223's arts program. Both teachers provide literacy-based instruction that address the Blueprint for the Arts and have attended professional development workshops to further that goal. In addition to the regular program, the music teacher prepares students for dance, theater and choral performances, and has been developing a dedicated piano lab for keyboard instruction. Supplementing the regular program, the art teacher has involved students in the creation of permanent school murals created directly from their drawings. The execution of these murals also involved the NY Cares community volunteer service. An art club is also in place. A school-wide art fair this year celebrated many of the projects created by our students. The school would like to produce similar art fairs in the future. P.S.223 enjoyed a number of arts residencies this year, in a variety of arts disciplines (as described earlier in the survey). Studio in a School (through the Artful Learning Grant), and LEAP were among the cultural organizations P.S.223 partnered with this year. In addition to providing yet another cultural experience for our students, they have served as an opportunity for professional development for our non-arts teachers, as well as providing a model for Blueprint-based art education. The OTS after-school program has been a recent addition to our school in which a music program is in place.

Notes

- Throughout this report, N/A signifies that data were not applicable.
- Learning Environment Survey data are based on responses from schools where students provided responses to the 2007/8 Learning Environment Survey and are based on the perception of students about the arts in this school. For more information on how well this school supports student learning in the arts, please visit the 2007 - 2008 Learning Environment Survey which is located on the Statistics section of this school's website.
- Schools may have more than six arts and cultural service providers, but due to space constraints we were unable to list all of the arts or cultural organizations with which they work.
- All data are based on arts instruction offered during the school day. This Annual Arts in Schools Report does not report on after school, weekend, and summer arts education.
- Percentages of the Learning Environment Survey data may not add up to 100 percent due to rounding. The percentages are not based on a student response rate of 100%.

Definitions

- A dedicated arts classroom is a classroom that is only used for dance, music, theater, and visual arts.
- For a detailed description of what an appropriately equipped arts classroom is, please refer to the Blueprint for Teaching and Learning in the Arts, <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>.
- A blackbox theater is a simple, unadorned performance space, usually a large square room with black walls and a flat floor.
- General or core music is a broad-based study of music including music making, literacy, connections to world cultures, community resources and careers and life-long learning.
